

Jefferis Leaves Washington for Nebraska Visit

Aspirant for Senate Interested in Waterway Development and Reduction of Rail Rates.

Washington, May 17.—(Special.)—Congressman Albert W. Jefferis expects to leave tonight for Omaha to remain in Nebraska until after the primary election unless important measures in congress should demand his return to the capital.

Mr. Jefferis is due to arrive in Omaha Friday. As candidate for United States senator on the republican ticket, Mr. Jefferis will not establish campaign headquarters, he explained, but will depend upon his friends for support.

Before leaving the capital for some, Mr. Jefferis informally discussed the issues in which he is interested and which will place before Nebraska in his campaign.

Mercant Marine Needed.

Among these is a six-foot channel which he seeks for the Missouri river between Omaha and Kansas City, as part of the interest he has in waterway transportation. He has made arrangements to offer an amendment to the rivers and harbors bill when it is presented to congress.

"I believe," he said today, "that when the business of the country is restored, the railroads will have more than they can take care of. Transportation is the cornerstone of the farmer's business. We should open up all avenues of transportation, and for this reason I look forward to the establishment of a great merchant marine. Farmers cannot afford to ignore the importance of having an American merchant fleet which will be seeking markets for their products and which will make it possible for American shipping to have the first call."

Favors Tidewater Project.

"As part of this program I am earnestly in favor of the development of the Great Lakes-St. Lawrence waterways project. This will make it possible for the middle west to have access to cheap ocean transportation. The St. Lawrence project should be part of the merchant marine program."

In his candidacy, Mr. Jefferis will register his support of the administration and regards the Harding administration as a great success.

"It is not easy to measure the results of this administration," he said. "It has been in power only a short time, yet the things it has done will bear comparison with any administration."

Expected Rail Rate Cut.

"I found our foreign affairs disarranged, our domestic affairs at odds and ends, and everything topsy-turvy. It is folly to blame the administration for what evils exist today. The public should place the responsibility upon the administration that brought these conditions about."

"The Harding administration found our influence nil in foreign affairs. Yet in a short time it straightened out our affairs and placed the United States in the leadership of world influence."

"Treaties growing out of the armaments conference marked a turning point in world affairs."

"The great weakness in our economic fabric today is high freight rates. The president is dealing with that and I look forward to seeing great reductions made in the near future, in both passenger and freight rates."

Jury Completed in Hill-Maxwell Murder Trial

State Attorney States He Will Prove Slain Man Was Shot While Reclining on Floor.

Albion, Neb., May 17.—(Special Telegram.)—The jury declaration of Bolen Victor Cooley, who was shot down at his home in Silver Creek on October 28, will be submitted in evidence in the trial of Ed Hill and John Maxwell, charged with being his murderers, which opened here yesterday, according to Attorney Flory for the state in his opening statement.

He said in his opening statement that the state would produce evidence to show that Cooley had been assaulted and shot four or five times while on the floor in a reclining position.

The first witness to take the stand was Thomas Cotton, village marshal at Silver Creek. He testified that he was taken to the scene of the murder by Maxwell, while Cooley was still alive, and that Cooley told him before he died that he wanted to see his lawyer.

Nearly 400 persons from the vicinity of Silver Creek crowded the courtroom throughout the day. The trial is expected to continue for a week or more.

Rob Wymore Dentists

Beatrice, Neb., May 17.—(Special Telegram.)—Burglars entered the office of Dr. Fritz and Dr. Gillaspie at Wymore, but secured little of value. It is believed they are members of the gang which robbed dental offices here and have been operating at points in Kansas.

Omahan Speaks at Convention of Loan Bodies

Building, Savings and Loan Associations Marching Into Easy Street, Says T. J. Fitzmorris.

Lincoln, May 16.—(Special.)—Building, savings and loan associations of Nebraska are marching steadily along Normal avenue into easy street, declared T. J. Fitzmorris, secretary-treasurer of the Nebraska League of Savings and Loan associations, at the 31st annual meeting of that league which opened at the Lincoln hotel here this morning at 10.

"Business is fairly good. Money is plentiful with most associations, and gains in resources are the rule. These barometers of thrift and home getting furnish encouraging evidence of increased saving and greater economy among the people."

Improvement Shown.

"The marked improvement in the constructive business interests served by mutual associations is further shown by the increased number of loans for building and buying homes. Building activities in cities and towns, particularly in Omaha and Lincoln, surpass the spring rush of last year and foreshadow a substantial gain over the total home building record of 1921."

"This cheerful business situation does not approach the leaps and bounds of growth which marked the fiscal year of 1920, when associations rolled up an average gain of 18 per cent in resources. Fortunately so. Booms carry the red lights of the business world, signaling collision and irreparable blow-outs. The present rate of growth clearly marks a return to the high way of safety and sure footing."

Reports Support Views.

"Reports from 43 associations out of the 77 in the state for the nine months ending April 1, 1922, support the favorable business conditions here outlined. The reporting associations show gross assets of \$79,693,280, equal to 92 per cent of the state's total. In that period the grain in assets amounted to \$3,801,538, a clear 5 per cent increase, which will carry the total resources of all associations in the state close to \$89,000,000 at the close of the fiscal year, June 30, next."

"The figures of co-operative progress bear a message of cheer and satisfaction to the saving and home getting people of the state. By rule of majorities, Nebraska is a home-owners' state. According to the federal census of January, 1920, there were at that time 303,436 dwellings in the state, of which 177,733 were occupied by the owners. Home ownership constituted 57.2 per cent of all, placing Nebraska 12th among the states in percentage of ownership. States ranking higher are Wisconsin, Minnesota, North and South Dakota, Maine, Vermont, Michigan, Iowa, Idaho, Montana, and Utah."

32.5 Per Cent Mortgaged.

"The census report shows 177,733 homes other than farm homes, which comprise the dwellings in the various communities of the state. Of this number, 103,671 or 58.5 per cent, are owned by the occupants and 32.5 per cent are mortgaged. The average value of mortgaged homes is placed at \$4,175 and the debt \$1,646. The ratio of mortgage debt to value is 39.4 per cent."

The percentage of owned homes in Nebraska declined from 59.1 per cent in 1910 to 57.4 per cent in 1920, doubtless due to the restricted building activities of war time. Nevertheless, less the state's record of ownership stands 11.8 per cent above the average for the whole United States. Unencumbered homes constitute 61.7 per cent of the whole number of dwellings on farms and in cities and towns. Owned farms numbering 23,986 were mortgaged for \$168,507,859 and valued at \$705,561,409. The ratio of farm mortgages to value was 23.9 per cent. Homes not on farms, 33,680 in number, were mortgaged for \$55,427,688 and valued at \$140,607,534. The census bureau admits that statistics are not complete, as information was obtained on only 68.6 per cent of the mortgaged homes."

Ownership Decreases.

"Data compiled for cities of 50,000 population and over show that home ownership decreases as population increases. Lincoln, with a population of 54,946 in 1920, scheduled 15,812 homes, of which number 6,840 or 51.24 per cent were owned by the occupants. Census takers counted 44,499 homes in Omaha, of which 21,528 or 48.4 per cent were owned by the occupants."

"The census reports afford substantial and gratifying proof of the settled, industrious and thrifty character of Nebraska's family life, and furnishes the best evidence of the constructive work and worth of saving and home-promoting associations. In the last quarter of a century, these mutual institutions assisted in building 39,000 homes, loaned \$180,000,000 repayable in long-time installments and disbursed millions in dividend earnings among saving people. The official record for that period does not disclose any serious

Bankers to Contest Taxation of Capital

Lincoln, May 17.—(State Tax Commissioner W. H. Osborne said yesterday he has information that the bankers of Nebraska intend to contest the taxation of capital stock in national banks. State and national banks are taxed in the same manner. The understanding at the tax commissioner's office is that the nationals will bring the test case, and if they win the banks expect to profit by the victory."

The tax commissioner said his information is that the bankers' organization has employed E. M. Morsman of Omaha as its attorney, and will appeal from the levy.

Primary July 18

Lincoln, May 17.—(Special Telegram.)—Governor McKelvie today issued a formal proclamation setting aside Tuesday, July 18, as primary election day.

Happy Song of Little Pet Hen Sends Chicken Thief to Jail for 60 Days

O'Neill, Neb., May 17.—(Special.)—The happy song of a contented little pet dominick hen branded Charles Grady as a chicken thief in the minds of a Boyd county district court jury at Butte and sent him to jail for 60 days.

Charles was charged with stealing chickens from his neighbor, Andrew Lorenson, living near Butte. The chickens, with others, were found by Lorenson at a Butte butcher shop after the butcher had purchased them from Grady.

At the trial Grady said he had slept at a neighbor's house the night the chickens disappeared and he also contended that the chickens were his own.

Lorenson and his little son, Carl, insisted that the chickens belonged to them and said that in the bunch was a little pet hen trained to do various stunts.

Live Stock Man Outspoken at Rates Hearing

Head of Nebraska Organization and Freight Agent Glare at Each Other Across Table.

Robert Graham, a plain spoken live stock man of Alliance, Neb., and L. C. Mahoney, assistant general freight agent of the Burlington railroad, glared at each other across the table at the hearing on live stock rates before Examiner Disque of the interstate commerce commission in the federal building yesterday.

Mr. Graham, who is president of the Nebraska Stock Growers' association, declared many of the stock growers and shippers are bankrupt. Mr. Mahoney had testified that the Burlington's live stock rates in Nebraska are so low as to be almost confiscatory. But the Burlington at present has much higher rates than the Northwestern and Union Pacific roads, due to a ruling in 1919 by the interstate commerce commission.

Creditors' Best Answer.

"Many shippers drive their cattle a distance of as much as 20 miles to ship them by the Northwestern or Union Pacific because of the Burlington's rates," declared Mr. Graham. "From Alliance to Omaha the Burlington rate is about 46 cents. The Northwestern rate is 37 1/2 cents."

"Could you stand an increase of rates by the Northwestern and Union Pacific?" he was asked.

"Our creditors could best answer that question," said Graham.

"It doesn't sit well with the stockmen and others in my part of the state to be held up by the rates the Burlington charges and then read in the news of the day that the Burlington railroad declared a 25 per cent dividend last year."

Considered a Joke.

Mr. Graham was asked whether the War Finance corporation's operations had not helped the stockmen.

"That was considered pretty much of a joke in our part of the country," he said. "If it hadn't been for our local banks standing by us, we'd nearly all be ruined."

L. C. Mahoney, the Burlington's assistant general freight agent, declared that if the commission orders a strictly mileage scale of rates the result will be still higher rates to Omaha.

"Your idea of a reasonable rate is always a higher rate, isn't it?" H. W. Simons, attorney for the Omaha Live Stock exchange, asked.

"No," said Mahoney, "some rates on the Burlington may be too high but most of them are far too low."

Uncompleted Hotel at Grand Island Is Sold

Grand Island, Neb., May 17.—(Special Telegram.)—The uncompleted 10-story hotel building erected in this city in 1917 has been sold by the bondholders, who purchased it at a foreclosure sale last February to a Mr. Carter, paving and sewer construction contractor at Sioux City, Ia., for \$75,000 cash.

Mr. Carter was attracted to Grand Island by the proposals for sewer construction. When he heard of the bargain involving possession of this property, he at once lost interest in the sewer construction contract and, after a telephone conversation with Judge Norwah representing the bond holders, he bought the hotel to arrange for the full cash payment.

Mr. Carter stated here that if successful in purchasing the hotel, he would at once complete and equip the building and lease it.

Friend Farmer Makes Profit on Load of Heavy Herefords

A consignment of choice heavy Hereford steers, that weighed 1,565 pounds, was brought to the Omaha market by Charles Hansen of Omaha. He received \$8.20 a hundred.

Mr. Hansen said he bought the steers in Omaha last October when they weighed 1,100 pounds and cost \$6 a hundred. He roughed them about two months and then put them on a straight alfalfa and corn ration for five months, making a good profit.

Sheriff Seeks Peddler

Beatrice, Neb., May 17.—(Special Telegram.)—Sheriff Emery is looking for a peddler, who called at the farm home of Mrs. Dewey near Liberty and sold her a pair of spectacle lenses for \$50 which were made out of window glass.

Burlington Candidate Jumps to Second Place

Deposits at Bank.

In order that each candidate or treasurer of a candidate may have the utmost privacy on the final day of balloting they will gather at the bank between 2 and 3 Friday afternoon. They should bring all previous deposit slips. They will be taken in turn to a private consulting room to make out the final deposit slip and check all deposit slips against the total number of votes credited to them. No returns of standing on the final day will be given out until the complete tally is made for the final count. Candidates and managers and friends are invited to gather at the bank at the time of final deposit where the first announcement of the number of girls to be sent to France will be made and the winning candidates announced. It is expected that the first announcement will be made about 4 Friday afternoon.

Many Cities Contribute.

The election as conducted under the auspices of the Omaha Bee smashed all previous records. Omaha is the first city to secure a total of \$10,000 in the middle of the voting period. It is the first city to be assured of delegates before the time of final tally. Not content with this the candidates have made it possible for three girls to be guaranteed election two days before the close. Undoubtedly the largest delegation elected up to the present time will be an additional honor for Omaha.

"This has been made possible through contributions from many cities boosting the campaign of the various candidates. Several girls have determined that from Omaha also will be named the official head of the National Delegation."

No One Will Deny

THE importance of quality in buying clothes, and since so much of it is where it can't be seen, you should make certain it's all there.

You may select a pattern that pleases the eye, and its texture indicate softness and strength by its feel, but its ability to retain its shape and give lasting satisfaction will depend upon how it is put together.

Prices \$45 - \$50 - \$60 and up

Do not fail to see our splendid Serges, suitable for year around wear.

Also White Cricket Flannels - Silks - Linens - Palm Beach and Mohairs for hot weather.
