

Convict Labor Will Be Used on State Highway

State Engineer Announces Agreement to Employ Prisoners in Effort to Keep Costs Low as Possible.

Lincoln, May 18.—(Special.) Convicts will work on Nebraska roads again this year. The announcement was made today by George E. Johnson, state engineer, following a conference with Governor McKelvie. The exact number to be placed on the roads next year has not yet been determined. "We will not know for certain how many men we will call on when Fenton to supply until we learn how high the bids are on road work," Johnson said today. "It is certain we will go the limit if the bids don't coincide with private bids, which are lower by a large per cent this year than they were last year."

Figures obtained by Johnson from Warden Fenton show that from 150 to 200 convicts can be thrown into road work if it is necessary. Johnson, for a time demurred against using convict labor this year because he had been led to believe that the board of control in charge of the penitentiary would not lower the price per day which it charged Johnson's department for convicts. Warden Fenton immediately jumped into the foreground declaring that to deny convicts road work and to double time on their sentences which road work insured, would do much to break the morale of the convict and make discipline difficult in his institution. Conferences between the governor, Johnson and the board of control have been held since that time, resulting in agreement today to put the men in road camps.

Additional Time Given State Capitol Contractors
Lincoln, May 18.—(Special.)—George E. Johnson, state engineer, announced that the date for opening bids for erection of the superstructure of Nebraska's new \$5,000,000 state house set for June 8 had been postponed until June 14. Johnson explained the delay was in order to give prospective contractors more time.

Cement Bids Rejected.
City council yesterday rejected bids received last Tuesday for supplying the public improvements department two carloads of cement. Low bids were \$2.34 per barrel. City Commissioner Joseph Koutsky announced that he can go on the open market and save at least 10 cents per barrel as against the low bids.

Why Gums Bleed
And How to Put Them In Firm, Healthy Condition

Gums bleed because the action of germs and mouth acids cause them to soften and become tender. Kill the germs and neutralize the acids and you give the gums a chance to become firm and healthy once more. That is exactly what Lykolene does, and that is why you can quickly get relief from mouth troubles by using it daily as a mouth wash. **Wonderful Antiseptic for All Purposes**
Use Lykolene whenever an antiseptic solution is needed and see what an aid it is to healing. Apply it to cuts, sores and inflamed places; use as a gargle for sore throat, as a douche and as spray. It acts at once and makes a real cleanliness possible. No need to use poisonous compounds when Lykolene does the work better and is safe. Sold by leading druggists.

The Rock Island is your railroad

It was the first railroad to cross the Mississippi, making possible the early settlement of the west.
It will complete on October 10, 1922, a span of 70 years, the allotted age of man.
It has grown to a system of 8,122 miles.
Its facilities now extend to practically every commercial center in fourteen mid-western states, well named the "bread basket of the world."
It paid these fourteen states \$6,042,736 in taxes during 1921.
It employed 40,388 persons during the year.
It paid these employes \$68,429,190.
It disbursed to its pensioners \$150,770 during the year.
Its employes have a nation-wide reputation for courtesy.
It endeavors to render efficient service.
It earnestly solicits your patronage.
It is a "home" industry interwoven with every local activity.
Its problems are your problems, and it needs your co-operation in solving them.
Your future prosperity is largely dependent on the maintenance and development of a successful transportation system.

Light Rate Battle Resumed at Aurora

Electric Company Announces All Deals Off With City.

Aurora, Neb., May 18.—(Special.)—Negotiations for a settlement of the controversy between the city of Aurora and the Public Service company came to a sudden end when attorneys for the light company served notice that all deals were off and that the rate battle would be fought to the bitter end. The city secured action several months ago enjoining the company from charging rates which had been granted temporarily during the war period. The injunction asked for the return to the regular ordinance rates. A temporary restraining order was granted and immediately the company removed the case to federal court, where it is now pending. At that time negotiations were begun looking towards a settlement and it was assumed that the settlement had been reached. The city had agreed practically to the offered plan of the company. In the meantime the Continental Gas & Electric company, which is the holding company for the Public Service and other subsidiary lighting firms in Nebraska and Iowa, offered for \$1,500,000 mortgage bonds and its offer as printed in one of the Chicago papers stated that the net earnings of the company for the year ending February 28, 1922, were over the interest requirements on all its mortgage bonds outstanding, including its issue of \$1,500,000. In the ordinance of the city granting the franchise to the company, it provided that each year the net earnings over and above 10 per cent of the capital stock actually paid in all be divided, half to the city and half to the company. In its petition the city asks for an accounting to determine what the net earnings of the company have been during the last 10 years, and if the lawsuit proceeds, it is probable that the city

will seek to have the books of the company thoroughly examined.

Crete Loses \$70,000 Bond Issue Case for Drainage

Beatrice, Neb., May 18.—(Special Telegram.)—Judge L. W. Colby of this city, sitting on the bench for Judge Brown at Wilber, heard the drainage bond case involving \$70,000, brought by 94 citizens of Crete against the city and Allied Contractors to enjoin the issuance of bonds and the levy and collection of taxes for their payment. The court perpetually enjoined the city, holding that neither the drainage district, the issuance of bonds, levy or assessment could be created by resolution as was done by the city council.

Dairymen Plan to Hold Picnic

Co-Operative Creamery Arranges Big Meeting at Orleans With Prominent Speakers.

Orleans, Neb., May 18.—(Special.)—Thousands are expected to gather here from the surrounding country to take part in the second annual picnic of the Orleans Equity Co-operative creamery Saturday. Speakers of national repute in the agricultural field are to be present. Among those who will speak are President Gustafson of the United

States Grain Growers, Inc.; Mr. Melton, president of the National Equity union; Prof. Frandsen, dairy editor of Capper's farm publications; George Wallace, state representative from this district, and H. Z. Baker, president of the creamery. Motion pictures featuring various phases of the dairy business will be shown during the afternoon and evening. A representative of the state agricultural department also will be here. The Orleans junior band and the Bertrand band will furnish music for the occasion. The Orleans High school baseball team will play the Oxford High school nine on the local diamond.

Bootlegger Is Fined
Kimball, Neb., May 18.—(Special Telegram.)—Sheriff Forsling caught Leonard Bekstrom transporting liquor. He was arrested and pleaded guilty of possession and transporting liquor and was fined \$100 on each count.

There's a Difference In Health Breads

There's bound to be a difference when so vital a part of the grain as the Wheat Germ is baked into one loaf and left out of another. For the Germ contains proteins, mineral salts and vitamins—foods that are needed most by the digestive system.

Burns' WHEAT-TONE HEALTH BREAD does contain the Wheat Germ. The fact that we have installed a special flour mill in our bakery assures this to you. Here we mill the flour for WHEAT TONE fresh every day, seeing to it that ALL of the wheat is used. By this special milling process WHEAT TONE is also made to contain all of the coarse, laxative bran.

The Wheat Germ builds up and strengthens; the bran regulates.

WHEAT TONE flour contains 100% of the WHEAT BERRY and WHEAT TONE Health Bread contains no added white flour. Thus the milling of our own flour assures you of the Germ and all of the Bran, making WHEAT TONE a different, better health bread.
