One important alteration of the Ford offer, it was understood, eliminates the steam power plant at Gorgas, Ala., from the group. Another committee amendment would compel the purchaser or lessee to manufacture fertilizers and sell them to the public throughout the period of the contract, whether for 50 or 100 years. The minimum production would be calculated on 40,000 tons of ammonium nitrates only, estimated to be equivalent to 2,000,000 tons of finished fertilizers annually. Chairman Kahn called representa-

ives of the bidders into conference late yesterday, advised them of the committee's plan and requested that they inform the committee as quickly as possible whether the details were acceptable to their principals.

Each week, when some of the larger ships sailing for New York are churning the waters of the canal, the propellers seldom fail to bring one or more bodies of seamen to the surface. In many cases it is believed the men have fallen into the no signs of violence.

The American seamen themselves are considerably involved in law breaking. An outstanding instance recently was that in early May when Hugh Reilly of Chicago, from the steamship America, committed suicide after shooting and killing a bar-

Rector Favors Prohibition. "Mankind, allot yourselves a couple non-alcoholic days each week," is the motto which should be hung up everywhere, according to Prof. Walter Nernst, rector of the University of Berlin, and a Nobel prize

Dr. Nernst voiced this opinion in addressing the second annual German congress for the propagation of prohibition among youths. He asserted he thought young students particularly liked to sing drinking songs but that they did not drink so much as is commonly assumed. He called attention to great writers, from Horace to Goethe, who have sung the praises of alcohol but said of late years, young students were swinging to the other direction. He said one no longer found the inclisaid one no longer found the incli-nation to drink solely for the sake of getting drunk and declared that scholars had become the best allies in the fight against alcohol.

Man Named "Pete" Thought to Be One to Whom One of Victims Cried, Out for Mercy.

Two men were arrested Saturday and are being held for investigation in connection with the brutal slay-ing of Walter Goodman, 1123 Pacific street, and Dan Lewis, 1218 Mason street, negroes, early Friday morn-

The men are Sebastian (Joe) Scolla, 1319 Pierce street, butcher, and Frank (Pete) Anzola, 1440 South Thirteenth street, barber. The fact that Anzola's nickname is "Pete" and that he owns a car answering the description of the one seen near the scene of the slaving of Goodman, at Seventh and Pine

sfreets, are said to have led to the arrest of the two men. Pardo Heard Supplication. According to E. S. Pardo, 702 Pine street, who heard the fatal shots, a car drove up in front of his home and a man emerged from a nearby gully, climbing into the machine He said he saw a second man, negro, emerge from the gully and

approach the car, which backed to-ward him about 50 feet. A sculifle followed, during which the negro cried out: "My God, please don't shoot me!" according to Pardo, who says the man used the name of "Pete" in his supplication. The shooting followed.

Say Anzola's Car Used.

Anzola's car was in use the night of the slaying, according to police. The body of the other negro, Dan Lewis, was found at Sixth and Pierce streets by police shortly after they
