Wife, Child and \$500 Gone; Man Implores Help

Cudaby Employe, Returning Empty-Suspects For-From Work, Finds Home mer Roomer.

With tears streaming down his cheeks and voice choked with sor-row, Frank Cost, Cudahy employe, 5507 South Thirty-first street, appeared at South Omaha police station to ask Captain Briggs to in-stigate search for his wife and child

Cost explained he came home from work Friday evening, expect-ing to be greeted as usual by his wife, Rosic, and son, Johnny, 9,

But only ominous silence creeted him as he opened the door and found John Rowley sprawled out on a bed, dead drunk. He called out, but no answer came from his family, and he summoned police: Rowley, ar-rested, said he just happened in hecause he saw the door open, and lay

down for a nap.

Detectives and Cost questioned Detectives and Cost questioned neighbors concerning the wife and child and were told she had informed them she and the boy were going to Kansas City.

Cost told Briggs he suspects his little family has been lured away from home by Tom Bodonoff, former to worker with him at

former co-worker with him at Cudahy's and up until two months ago a boarder at the Cost home. Cost said \$500 also is missing from its hiding place. Captain Briggs rook action toward halting the fugitives, if such they should be, at

Radio Landmarks of Last Decade

in Startling Events-Rapid Progress Made.

The past 10 years has witnessed an advancement in wireless that equals the rapid progress in sciences during the Renaissance. The following data is evidence of the part that radio played in the progress of the world in the progress in sciences during the first of its kind. last decade:

1911—Canadian government leased radio stations for 20 years. 1912—Radio distress signals from radio stations for 20 years.

1912—Radio distress signals from the "Titanic" brought assistance and saved lives of 700 passengers.

three additional stations, one at Springfield, Mass., another at Chicago and still another at Newark, N. J. The General Electric company.

station at Washington. During the trip into Central Asia an explorer received his longitude and time signals from a distant radio station.

Italian fleet. The test was continued in the middle west. between vessels on the high seas and voices were heard with clarity at a Creston Is and Mrs. distance of 44 miles. One day radio telephone communication was kept up constantly for 12 hours. Great Britain declared war upon Germany August 4 and all private radio telegraphy and telephony suspended. Within the next few months prac-

tically all the German wireless sta-tions in foreign possessions were seized and destroyed by allied forces. Frank J. McGarry, brought before Federal Judge Woodrough yesterday morning on a charge of transporting
