My Marriage Problems

Adele Garrison's New Phase of "REVELATIONS OF A WIFE"

WHEAT TONE LIVES UP TO ITS NAME It Tones Your System

Toning means tuning—everything properly adjusted—your digestion, your appetite and your nerve forces. WHEAT TONE stimulates and rebuilds all of these.

It's the Germ of the Wheat and the Bran in WHEAT TONE—that makes this possible.

The Germ of the Wheat contains the mineral salts (nerve food), vitamins (for growth), fats (for body fuel). The Bran serves as a laxative.

WHEAT TONE contains the Germ and ALL of the Bran because we installed a mill in our bakery for grinding the flour. In no other way could we get this flour. Modern mills take out the germ, for flour containing it deteriorates so rapidly it cannot be shipped or stored.

remembered eyes of the man whose hand, slender, shapely as a woman's, yet with a tense grip that told of steel-like muscles, had enveloped mine.

Lillian Helps Madge. "You cannot know how glad I am to be welcomed," he said impressively, gazing down at me with the brilliant eyes so oddly shadowed by the long, womanish lashes which distinguished him.

"Lucky Blossoms!" "Lucky Blossoms!" he said softly. "But cannot your eyes leave them soon? I really would like to have you look at me again."

every woman he met was anxious for his attention that he did not trouble himself even to originate a new bit of flattery. I was as certain that he had said exactly the same thing to a dozen different women as I was that his utterance of the platitude affected me in no way but an inclination to laughter.

I tilted my head a trifle and looked at him as he had requested, with laughter-filled eyes. But I had to grip my determination hard to keep from that laughing indifferent pose. For in the eyes looking at me, indolent no longer, I saw the answer to the question I had asked of myself in the mirror.
