

## 153 Creighton Graduates Will Get Sheepskins

Commencement Exercises to Be Held in College Gymnasium Following Parade Through Campus.

Commencement exercises of Creighton university will be held today at 10 in the college gymnasium following a procession of the 153 graduates through the college campus.

The graduates are from the departments of arts and sciences, dentistry, law, medicine and pharmacy. Charles Upson Clark, Ph. D., formerly of Yale university and of the American Academy in Rome, will give the baccalaureate address. The oath will be administered to the 18 graduates of the law department by State Chief Justice Andrew M. Morrissey. In the procession the graduates will be preceded by the heads of the various university departments, as follows: Arts and sciences, Dean Rev. William Grace, S. J.; law, Dean Louis J. TePoe, A. B., LL. B.; medicine, Dean Herman von W. Schulte, A. B., M. D.; dentistry, Dean A. Hugh Hippie, D. D., S. M., D. S.; pharmacy, Dean Howard Chamberlain Newton, Ph. G.; R. O. T. C., Maj. Corbit S. Hoffman, infantry, U. S. A.

Names of the graduates follow: Bachelor of arts: Joseph Barkmeier, Robert Burdick, Clarence Davidson, Everett Doyle, John Fitzgibbon, Emil Gaff, George Hunsicker, Leo Hunsicker, Joseph Kellner, William Klemm, William North, Edward McLaughlin, Clifford Muller, Francis Pflaum, John Wearing. Bachelor of philosophy: Daniel Conway, William Derie, Harold Downing, Henry Giesse, Henry McGilone. Bachelor of science: Arthur Anthony, Milton Bateman, Richard Brady, Bernard Burns, Charles Carty, Anthony Carroll, Milton Carter, Frank Cline, Joseph G. Grafton, Fitzgibbon, Joseph Grace, James Hall, Charles Hayes, Joseph Koverla, John Jordan, Charles Kuehn, Thomas Kargach, John Keastel, Harold Lammer, Joseph Pittsman, George Lyach, John Male, Arthur Mayer, Harry Mernagh, Francis McDonough, Hugh McLaughlin, John Orman, Theodore Rohrer, Felix Spittler, Raymond Waller, W. J. Eber.

Doctor of Dental Science: Carl Astrop, Andrew Amick, Peter Blair, Ralph Carlen, Eugene Ellis, William Giles, Robert Gormley, Thomas Nettleton, Paul O'Brien, Raphael O'Brien, Joseph Passanelli, Walter Spelman, Adolph Sindler, Louis Topel, James Vasho, Joseph Yeibout.

Bachelor of laws: Charles Bongard, Nicholas Char, Patrick D'Arcy, Prairie Emery, Lawrence Hannan, Leo Hirschman, Charles Kearney, George Leach, James McLean, Thomas Male, Richard Melander, Leo Molloy, Daniel Monen, Charles Morarty, Charles Rapp, A. J. Rhodes, Leo Ryan, George Rogers.

Doctor of medicine: Anna Viola Barrett, Percy Bell, Raymond Brennan, John Brown, Elias Campbell, Philip Campbell, John Chaloupka, Jay Cook, Harry Collins, Richard Collins, Paul Dwyer, John Gardiner, Joseph Roman, Bernard Kenny, Felix Korda, Paul Kuhlthaus, Edward McCarty, William Nemesek, Hugh O'Connell, Kenneth Roper, William Schmitz.

## Connections of Common Regenerative Receiving Set Explained by Radio Expert

A common form of regenerative receiver, which, although simple, is in general use at the present time, is known as a single circuit regenerative set.

Anyone who desires an outfit that is simple to operate, yet sensitive and efficient, may find this circuit, as explained by F. W. Swain, a radio expert, will prove very satisfactory in these respects.

A common form of vario-coupler is employed, the secondary (S) of which is connected in the plate circuit. The primary (P), which is in the antenna grid circuit, is shunted by an ordinary eleven seventeen plate variable condenser (.0025 or .005 m. f.).

One, two or three stages of amplification may be used with excellent results on this receiver by connecting it in place of the phones and putting them in a similar place in the plate circuit of the last amplifier.

Heat Vacuum Tube in Oven, Is Latest Advice

The vacuum tube filament is designed to operate on a six-volt circuit, similar to the usual auto headlight bulbs, and excessive current will simply melt the filament. The maximum amperage or flow of current, not pressure, should be one ampere. Even this is merely the maximum limit, but it will be found that about half of that will be sufficient under the usual operating conditions. As the tubes grow older it

slowly. It will then be found to have renewed sensitivity and will require less current to operate. Of course, after repetition, even this will fail in time, but you have increased the natural life two or three times with the extra care you have taken.

## SPARKS

Herewith are published the call letters and locations of broadcasting stations as listed in the government directory:

Call Letters Location  
WZZ New York City—John Wanamaker.  
WDA Mexico City, Mex.—City of Mexico.  
WIM Hickwood, N. Y.—Ridgewood.  
WFI Philadelphia—Ridgewood & C. Co.  
WPI Philadelphia—Gimbel Bros.

Others will be listed in the radio columns of The Bee tomorrow.

Be sure to keep the storage batteries for your radio set filled with distilled water. This will lengthen the life of your battery considerably, and keep it in good condition.

Be careful of your vacuum tube. It is a very delicate instrument and is also expensive, at least too expensive to break very often. An auditor, in other words, a detector tube is an incandescent bulb, and is more breakable than any electric light bulb, and certainly every one knows how easy it is to break an electric light. You can judge then how easy it is to accidentally break your tube.

## Night Watchman at Mine Charged With Killing Two

Trinidad, Colo., June 2.—After slaying W. N. Ferguson, 22, a student at the Colorado School of Mines, Joe McGonigal, a night watchman at the Jewel mine, is alleged to have shot and killed Miss Ella Centers, 25, daughter of a boarding house keeper, here this afternoon. He is being held in the county jail at Aguilar.

After shooting the two, McGonigal is alleged to have shot himself through the foot in an effort, according to authorities, to substantiate an alibi of self-defense.

Ferguson's home is in Saco, Me. Jealousy over the girl is said by officials to have prompted the shooting.

## Citizens Flee Pershing Town; Taxes Too High

Boom Town in Osage Country Incorporated in 1919 Dwindles From Thousands to Hundreds.

Pershing, Okl., June 2.—"They bonded the town so dog-gone heavy that the folks all moved away."

That's the way one of the "surviving" residents described the plight of this "city" today.

Pershing—boom town of the Osage country—incorporated in 1919 and quickly growing to a population of several thousand, has but a few hundred inhabitants left within its limits. Its "Main street" looks deserted—for all the world like a stage street on a movie "lot" after the mob "extras" have left and the cameras have ceased to grind.

It had big ideas, according to the "early settlers." It took the name of the commander of the American armies in the war, and General Pershing, justly proud, gave money for its beautiful church edifice.

But it wanted public improvements and bonded itself for \$140,000. Taxes soon soared. They reached 16 per cent, where they are at present, and the Pershingites began to "pull out stakes" and move. Some of the buildings which were portable were hauled out of town. Others were boarded up.

Oklahoma taxpayers who took \$80,000 of Pershing's bonds have now asked for an investigation, which has been ordered, to ascertain why the interest on their bonds has not been kept up.

And in the meantime, Pershing wonders what it will do to solve its problem—taxes, taxes and still more taxes.

## Sioux City Man Killed and Thrown in River

Sioux City, Ia., June 2.—Floating in the Missouri river, a bullet imbedded in the brain and the limbs bound with cord and wire, the body of Eric Liden, father-in-law of Assistant City Attorney E. G. Smith, was found yesterday afternoon.

Murder is the theory which the police are working upon.

Liden left his rooming house Monday night ostensibly to go on a fishing trip. It is believed by authorities that the murder was committed on the banks of the river, that the murderers weighted the body with a heavy rock, tied the limbs and then threw it into the river.

Liden was not in financial difficulties and a small sum of money was found in his pockets when the body was recovered.

## Officers Are Re-Elected by Missionary Society

Officers of the Omaha district, Nebraska Conference of the Women's Home Missionary society of the Methodist church, were re-elected at the annual convention in Hanscom Park church Thursday. They are: Mrs. J. M. Langford, Fremont, president; Mrs. Victor West, Omaha, vice president; Mrs. H. H. North, Omaha, corresponding secretary; Mrs. M. L. Stone, Omaha, treasurer; Mrs. Charles Mulloy, Fremont, mite box secretary; Mrs. Ella Brown, Lyons, temperance secretary; Mrs. Joseph Stopford, Oakland, Christian stewardship; Mrs. J. B. Stoner, Arlington, evangelist; Mrs. N. Martinson, Omaha, missionary education; Mrs. Charles Peacock, Plattsmouth, conference member; Mrs. C. C. Cissell, Omaha, children's work; Mrs. A. C. Lessard, Omaha, Young People's work. The 1923 convention will be held in Fremont.

## Wife Claims Mate Confessed Bigamy

Joe Sutton and his wife, 1517 Burt street, were arrested for disturbing the peace at Thirteenth and Dodge streets Wednesday, and when they appeared in Central police court Thursday morning, where he was fined \$50 and she was discharged, details of their marital difficulties were told.

Mrs. Sutton declared she would file bigamy charges against her husband, alleging that he confessed to having another wife.

She also complained that her husband would not take her out, to which Sutton answered that he offered to take her out one night last week, but that she refused. "I wouldn't go," she said, "because he always takes me to places where the women drink and smoke cigars."
