

Two U. S. Aviators Arrested in Probe of Mexican Revolt

Americans Held for Importing Airplanes Across Border—Two Killed in Attack on Military Escort.

Juarez, Mex., June 3.—Two Mexican citizens were killed, two American aviators were arrested and a former officer of the Mexican army detained in connection with investigation of revolutionary plots in Mexico Tuesday, according to official dispatches received here today.

Col. Ernesto Argias and Rosendo Velasquez were arrested at Tlapacotal, Guanajuato, on a charge of being implicated in plots to make Gen. Felix Diaz president of Mexico. On the way to Cejaya for trial, friends attempted to free them. In the attack on the military escort, the two prisoners were killed and two soldiers were wounded.

At Jalapa, Vera Cruz, two American aviators, whose names were not given, were arrested after they had imported two airplanes ostensibly for exhibition purposes. Federal authorities say they discovered that the two aviators had leased the machines to revolutionists. Mauricio Beltram, former Mexican army officer, was arrested on the charge of being implicated with the American aviators.

Sweeping investigation of what the officers believe to be an extensive ammunition smuggling plot was begun here today by Paulino Guerrero, customs collector. The inquiry follows the discovery of 15,000 rounds of pistol ammunition, billed as farming implements at the local export office.

Wide Variety in Fall Styles

Length of Skirts to Be Determined by Particular Type of Suit—Tweeds to Be Popular for Sport Wear.

By The Associated Press, Cleveland, June 3.—A wide variety of style in fall and winter garments is offered by the National Cloak, Suit and Skirt Manufacturers' association in its annual style book, issued here yesterday.

The slim-lined tailored suit with mannish, tailored collar, is supplemented by tweed suits for sports wear, and the more elaborate novelty models for dress occasions. The latter includes the three-piece suit and box-like models, embellished with fur.

The skirt length is determined by the particular type of suit. The tendency is toward a somewhat longer skirt for the dressy models only.

The mannish top coats in both belted and unbelted models, are developed in reversible fabrics, tweeds and mixtures, that offer a real opportunity for smartness and individuality.

Graceful and enveloping are the new wrappy coats and capes, with their convertible standing collars of fur. There are many individual cuts and unusual trimmings applied to these garments.

Blouse backs, panel effects and novelty girdles are features.

answer, I am convinced he looks on my proposition favorably," said Mr. Daugherty.

The former federal judge retired from the bench several months ago to give his entire time to his position as commissioner of baseball.

"The prosecution of war frauds is one of the greatest if not the greatest undertaking ever confronting the Department of Justice," the attorney general said. "I have engaged 50 rooms in a building in Washington to house the investigations.

"There are more than 150,000 contracts entered into by the War department alone. Those transactions are being looked over and as fast as discrepancies are found, the cases are being prepared. We have found material so far for 286 cases."
