

Move to Reduce Postage Rates Made in House

Representative Kelly Introduces Bill to Repeat Two of Four Increases Imposed as War Measure.

Omaha Bee Lensed Wire. Washington, June 10.—Reduction of second class postage rates, which were originally imposed as war taxes, was proposed in a bill introduced in the house by Representative M. Clyde Kelly, Pennsylvania, republican. The bill is intended to give relief to the newspapers and magazines which have made representations to congress that the continuation of high postal rates seriously affected the entire publishing industry. The Kelly bill would repeal the last two of the four increases in postal rates which were made under the war revenue law of 1917. Representative Kelly, in a statement, pointed out that newspaper and magazine publishers of the country are in need of relief from this discriminatory war tax in order that the press may continue to function. He stated that the proposed measure retains the present zone system of postal charges, but reduces the amount of charge to the second advance in rates which became effective July 1, 1919. According to Mr. Kelly, the rates asked would still give the government 175 per cent more than the prewar rates and would not relieve the publishing industry of one cent of the other federal taxes paid by it in common with other industries.
