Three Officers Kill Fred Roberts, Suspected in Slaying of Society Girl During Robbery.

Kansas City, June 10.—Fred Roberts, known to the police and underworld as "Big Fred," because of his diminutive stature was killed in a gun fight with three policemen early today. Roberts was charged with murder following the killing of Miss Florence Barton, society girl here, shot to death on a lonely country road while driving with her fiance in October, 1920.

Man Spends Last Cent for Suicide Pistol

L. F. Bradley, 25, spent his last cent for a revolver, stood in front of a mirror in his room at 1712 Capitol avenue, placed the muzzle against his right temple and pulled the trigger, according to police, who were called to the place Saturday morning at 10 when the landlady, Mrs. Florence Crawford, found the body. Scraps of paper bearing his name, address and telephone number were found scattered about the floor and the bed. One of these scraps was the word, "Enough." Bradley had been in ill health for a year, Mrs. Crawford said, and was extremely melancholy. She said he had been employed at one time as a bellhop at Hotel Fontenelle.

Dry Sleuths Checking Up on Dates of Rum Bottles

Rum sleuths were down in the basement of the federal building Saturday carefully tabulating the quarts and two five-gallon demitasses on 174 quarts and two five-gallon demitasses of whiskey seized at the home of John J. Chapman, 5088 Farnam street. They were assigned this task by Judge Woodrough Saturday when one bottle, bearing a label dated the hearing of Chapman's plea for 1921 and the legend "for medical purposes," was exhibited in court at the hearing. Chapman's plea for return of his liquor.

James H. Hanley, former prohibition director, pleaded for his client, Chapman, that there are but very few bottles of this kind labeled 1921, most of them being for 1916. So Judge Woodrough told U. S. Rohrer, dry chief, to get him the data on the rest of the liquor.

Shortage in World Wheat Supply Is Predicted

Washington, June 10.—World wheat stocks by July 1 will be lower than for several years, according to an analysis of the situation issued by the Commerce department. Both Argentina and Australia, the department explained, have considerably less wheat than last year, the United States carryover will be light, and only Canada has considerable stock on hand. A larger demand than last year, it was declared, was indicated by the upward trend of European consumption.

"Until next February," the department said, "the international trade will be largely dependent on supplies on the surplus of North America and a limited quantity from India. With Russia entirely out of the export trade, North American wheat is in a very strong position."

Tariff to Be Main Issue at Elections, Says Lodge

Boston, Mass., June 10.—The tariff is to be the one issue of the campaign this year, Senator Henry Cabot Lodge told members of the Lincoln Republican club last night. He declared that if the republican party should be defeated in the election next fall, it would mean commercial and industrial distress for many years to come. "Protection," Senator Lodge said, "was never so badly needed as now on account of the advantage of the foreign countries have in exporting to the hitherto unheard depreciation of their currency."

Union Receivership Action Is Set Aside

Cincinnati, June 10.—Receivership proceedings and a temporary injunction tying up the funds of the United Brotherhood of Maintenance of Way Employees and Railroad Shop Laborers in a Cleveland bank were ordered set aside in an opinion of the United States circuit court of appeals handed down yesterday.

The court reversed the decision of Federal Judge John M. Killits of Toledo, who recently issued the orders in favor of Bacon Brothers, a manufacturing concern of Toledo. The case arose over an agreement between E. F. Grable, president of the union, and other officers and the company to manufacture gloves in the latter's plant on a co-operative basis. The agreement was subsequently canceled and the plant turned back to Bacon Brothers, who sought damages for the use of the plant and failure to complete the contract.
