

"For Years,"

Says **CARRIE E. STOCKWELL**, of Chesterfield, N. H., "I was afflicted with an extremely severe pain in the lower part of the chest. The feeling was as if a ton

weight was laid on a spot the size of my hand. During the attacks, the perspiration would stand in drops on my face, and it was agony for me to make sufficient effort even to whisper. They came suddenly, at any hour of the day or night, lasting from

thirty minutes to half a day, leaving as suddenly; but, for several days after, I was quite prostrated and sore. Sometimes the attacks were almost daily, then less frequent. After about four years of this suffering, I was taken down with bilious typhoid fever, and when I began to recover, I had the worst attack of my old trouble I ever experienced. At the first of the fever, my mother gave me **Ayer's Pills**, my doctor recommending them as being better than anything he could prepare. I continued taking these Pills, and so great was the benefit derived that during nearly thirty years I have had but one attack of my former trouble, which yielded readily to the same remedy."

figures are coming into favor Again.

The cotillon or the german is absolutely necessary to the success of a dance, and new figures are hailed with delight. Probably the secret of its success is its possibility of endless variety. Each season sees the introduction of new figures, and this winter there have been introduced a number of novelties, one of the prettiest of which, according to the New York Commercial Advertiser, is the fencing figure. In this two men are supposed to fight for the privilege of dancing with a certain girl. Foils are given them, tipped on the ends with powder puffs liberally dusted with powder. The one who makes the first white mark over a vital spot is the victor and dances with the cause of the duel.

Another novelty is dancing through paper doors. For this figure frames covered with tissue paper are set up, and the couples dance through them. The scarf figure is pretty and is danced by almost a dozen couples, who wear light colored silken scarfs.

Flower figures are particularly pretty. Long stemmed roses are tied with ribbons. A certain number of blossoms are given to each man, who kneels and offers them to a lady. If she refuses, she waves him away; if she accepts, she detaches a small boutonniere from the others and pins it upon the coat of the favored one.

Many of the Japanese novelties are used for favors. Paper caps, aprons, flowers, etc., are presented and must be worn through the figure. The little ribbon wound hoops used for rattles make attractive favors; also the bell trimmed tambourines.

The success of a german depends upon the leader, as he must start all the figures, and the man who is most ready with novel features is in the greatest demand as a cotillon leader.

The "two step" is the favorite dance just now and can be danced to almost any music and be as slow or as fast as one chooses to make it.

One of the newest dances this season is the "Brunswick caprice." It somewhat resembles the Oxford minuet and is composed of several different steps, including the polka, varsovienne and the mazourka, and is remarkable for the variety of its steps and poses. The quadrille and lancers are always danced, for nothing seems to take the place of these dances in the public favor.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials.

In Agony

15 Years With Salt Rheum

Hood's Sarsaparilla Gave a Perfect Cure.

"C. I. Hood & Co., Lowell, Mass.:"

"Hood's Sarsaparilla is an excellent medicine. I had eczema in my left leg for fifteen years. Part of the time my leg was one mass of scabs, and about every week corruption would gather under the skin and the scabs would slough off.

The Itching and Burning

sensation made me suffer indescribable agonies. I spent a great deal of money for different remedies but did not get relief. About a year ago, leading physicians advised me to take Hood's Sarsaparilla. I did so and have taken five bot-
