C. M. Clark who frequently gives the public the benefit of his views in commanications in the daily newspapers of this city, has a ldressed the chairman of the Union Veteran Republican club suggesting the formation of a "non-partisan political soldiers' club." Mr. Clark says: "I was a republican for several years. I soon learned to my satisfaction that no citizen could be truly loyal to a government of, for and by the people, and at the same time loyal to a faction or a party, than he could have been truly loyal at once, both to the stars and bars and the stars and stripes."

Mr. Clark, unable to find a party to suit him, formed one all by himself. and he flocks together continually. The man who cannot be loyal to his government and at the same time support any of the principal parties is a freak and he should hasten to join Mr. Clark. There have been political parties since man has walked the earth, and there always will be. And while they have, in connection with many other good thing, contained much that is base, they have given to the world monuments of nobility, of patriotism, of independence, of liberty that will ever stand. Mr. Clark can hardly be loyal to the government until until he shall get away from his present unwavering loyalty to Mr. Clark, and join some great party for the upbuilding of the country and the improvement of the people's condition.
