We have purchased (because it is just the thing we have needed) the Columbian Cyclopedic Library, consisting of the Columbian encyclopedia, which is also an unabridged dictionary thirty-two volumes of convenient size neatly bound, four volumes of the annual cyclopedic review, four volumes of current history for 1894, one Columbian atlas and the neat convenient revolving oak case with glass doors. From the evidence obtained we find that some part of this work is placed in the best private and public library in this country an abroad, for the reason that they cover a field relative to the past, present and future progress and achievements of the human race not attempted by others. The plan is original, and the work throughout is carefully and ably written.

Current history contains 226 pages, is issued two months after the close of each quarter, this length of time being taken to reduce all information received to be an absolutely reliable and authentic basis. If these are kept on file, this magazine will prove a permanent and invaluable record of all important movements in political, social, religious, literary, educational, scientific and industrial affairs.

The magazine will be indispensable to all people who have encyclopedias, as it will be needed to keep these works up to date. To those who do not own encyclopedias it will be doubly valuable as their source of information is more limited. About March of each year the four volumes of current history are bound into one volume, known as the Annual Cyclopedic Review. There are now four of these bound volumes covering years 1892-3-4 and 5. The work has for endorsers and subscribers in this city and state such people as Mr. Gere, editor-in-chief of the Lincoln State Journal, Hon. Joe Bartley, state treasurer, Hon. W. J. Bryan, Mr. Miller, editor of the Northwestern Journal of Education, Hon. H. R. Corbett, state superintendent of public instruction, Dr. R. E. Giffen, Miss Mary L. Jones, acting librarian at the state university whose letter we publish below in full: "Every reading person has felt the need of brief summaries of current topics and events. The daily, weekly and monthly periodicals and papers may furnish data sufficient, but the labor of collecting and digesting it is frequently out of proportion to the result obtained. A most satisfactory summary may be found in the quarterly journal has been of invaluable service to the library covering a field that no other attempts.

Cod-liver oil is something more than a fat. Its peculiar action depends on a number of substances, among which might be mentioned iodine and phosphorus. There can be no substitute for cod-liver oil, because there is no other oil known which has in natural combination with it such a large number of valuable medicinal agents.

**Scott's Emulsion**

of Cod-liver Oil, with the hypophosphites contains the whole oil, with its natural properties, and in a thoroughly emulsified or digested condition. The hypophosphites increase the appetite and impart strength to the nervous system. This combination has marked curative properties in a number of diseases of the skin and scalp, to which scrofulous persons are peculiarly liable. Such diseases as chronic eczema, ring-worm, and other skin affections, are often quickly cured by the constitutional effects following the use of Scott's Emulsion.
