**Social and Personal**

On Wednesday evening a party sailed the seas of Burlington Beach. They were Misses Loomis, Ricketts, Vancil, Clark, Barr, Walsh, Harley and Marsland. Messrs Marley, Will Clark, Ricketts, Hutchinson, Randall, Barber, Reed and Sheldon.

Mrs. Baldwin and Mattson are spending a few months in their old home, Prophetstown, Illinois.

Mr. E. L. Perkins is visiting in La Peer, Michigan.

Miss Clara Walsh is visiting Miss Barr.

Next week a large party will go to the Crete Chautauqua grounds. The personelle is about the same as last year, when Mr. Will Clark, Miss Charlotte Clark, Mr Sheldon, Mr. Marlay, Miss Loomis and others organized the expedition.

Mrs. Frank M. Blish has gone to visit her relatives in Rockford, Ill., for several weeks.

The following Lincoln people went to Colorado Springs Tuesday: Mrs. Finney, Mrs. Hattie Mann, Miss Olive Mann, Mrs. W. D. Fitzgerald and daughter, Miss Marie Kettering and Mrs. A. B. Minor.

Prof. Geo. E. Howard has been granted a year's leave of absence from Leland Stanford university and will spend the first of it in Lincoln and the most of it in Europe. He has under way a book which, with the extra opportunities for study, will be a most valuable contribution to historical authorities.

Cards are out announcing the approaching marriage of Miss Maude Ethel Peebles and Rev. Robert T. Chipperfield, pastor of Trinity Methodist church. The wedding will occur at high noon on August 4, at the home of the bride's mother, Mrs. Dr. George H. Peebles, 2506 N street. A reception will be given from 8 to 10 in the evening.

Mr. and Mrs. Paul F. Clark, C. H. Gere and daughters, Mr. and Mrs. W. E. Hardy and Mr. and Mrs. H. J. Whitmore returned from Osakis on Wednesday. They caught plenty of bass, pickerel and pike. The members of the party are done a delicious brown by the wind, the wave and the sun. Having weathered Minnesota, part of the campers are going to try Wyoming. Next week Mr. and Mrs. Gere, Miss Gere, Miss Ellen and Miss Frances With, Mr. and Mrs. Emory Hardy, Mrs. Whedon, Miss Whedon, Miss Maggie, Bert and Charles Whedon start on a camping trip to the Big Horn mountain. Mr. and Mrs. T. C. Munger stopped in Iowa to visit friends.

Morris Friend left Wednesday for New York. He expects to go from there to Atlantic City, N. J., where he will join Mrs. Friend and pass a week or two at the seashore.

So long ago as June 3, Mr. Walter W. Melick was united in marriage to Miss Claribel Alford of this city. The ceremony was performed at Hiawatha, Kansas, over a month ago, but was not announced till Wednesday when the bride returned from Fremont where she has been staying. Mr. and Mrs. Melick will live in Lincoln.

The Lincoln and Yukon Gold Mining company is the first Alaska gold company to be incorporated, but there are dozens in the air and every day or

so one or two may be expected to light. Mr. W. J. Lamb, the president of the Yukon company, has been in Alaska and has more than a hearsay reason for his enthusiasm. There is more than gold there. It is magnificently timbered, the cedars that cover the mountains grow to a height of fifty or sixty feet. The boles are without lateral branches until they begin to taper, for the top and the grain of the white cedar is fine and straight. Silver and gold, copper and zinc are also found in great purity and abundance. The shortness of the season will prevent a large output until the holes are dug into the subterranean region which has no seasons and no day. Then there is no reason why the ore can not be mined the year around. The formation of grub-stake companies has only one drawback. It is difficult to believe that the agent will divide if he acquires a paying mine. After encountering the climate and perhaps wild animals the agent will begin to feel that whatever reward come he deserves to reap himself. If it were not for this flaw in human nature which grows wider to the vision as experience broadens, by next spring there would be a car full of grub-stake miners representing as many Lincoln companies, en route for the Klondyke.

The A. O. U. W. had a large picnic at Hickman on Thursday.

Major Fechet said he was suprised at the notice which the Nebraska delegation attracted at the Logan ceremonies in Chicago. Until they get another presidential candidate like Bryan, the delegation from Nebraska, where ever it shows up, will have the unrivalled attention of the crowds.

Misses Nellie Griggs, Dora Griggs, Pearl Powers, Fannie Hershey, Martha Burks of Beatrice and May Whiting, N. K. Griggs and H. T. Westermann left Tuesday for Dome Lake, Wyoming. Several years ago this lake was discovered by Mr. Gillette, a civil engineer in the service of the Burlington road. The water is snow cold and as green as ice. The lake is now 200 acres in extent and full of trout. The land surrounding the lake, about 1,300 acres, has been bought by a summer vacation company among whom are messrs Kimball, Holdrege, Tom Kimball of Omaha and Mr. J. B. Weston of Beatrice. The cottages are of logs with deep porches and wide stone fire places in which logs are always burning. Snow storms in midsummer are frequent and the air at night is of a penetrating coolness. Mr. Tom Kimball is the architect of the cottages and as THE COURIER has remarked before, he knows what he is about except when he approaches arches. He gets then mixed up with church spires and various ecclesiastical devices which do not go far enough to transform it into a sanctuary and do spoil the arch.

Dr. C. E. Bessey will leave next week on a journey that does honor to him. He will attend the meeting of the American association for the advancement of science to be held at Detroit, August 9-14, and will there read three papers whose subjects are, "Report Upon the Progress of the Botanical Survey of Nebraska;" "Are the Trees Receding From the Nebraska Plains?" "Some Character-

"A man often says: "My business is different from any other kind; it's almost impossible to advertise my business." That remark shows a misunderstanding of what advertising is. It is making a business known to those who ought to know it. This can be done with any business.
