### CLUBS.

[Continued from Page 4.]

eration, was entertained by the Ingleside club during her stay at which she addressed the Educational Convention on "Ethics in our schools." After the address (which was the ablest of the convention) Friday evening the ladies of the club tendered her an informal reception at Hotel Perkins at which she gave them a very pleasing and helpful talk. She believes in an extended and broad work for club women. And her talk inspired Ingleside to undertake the supervision of a junior club for girls, open to any and all who desire the cultivation of club work.

[This altruistic movement of the David City Ingleside is worthy the attention of other Nebraska clubs and we would like to hear of its success.—CLUB EDITOR.]

On Friday the Patrons association met at the Capital school.

Mrs. I. N. Baker read an exceedingly pretty essay on "How Best to Cultivate Truth in Children," which was followed by a lively discussion. This was terminated by the arrival of Prof. Saylor, who gave an interesting and timely talk. He showed that these patrons' associations are the logical outcome of the sociological conditions. The commercial pres-

sure brought to bear on the young men, and the greater competition in all lines, naturally raised the educational standard. This upward tendency the mothers dimly feel, without realizing the exact nature, hence their active interest in the education of their children.

The name of these school organizations at first was "Mothers' Meetings," but has been altered that no father may feel himself excluded from attendance.

The Matinee Musicale will give a sacred concert of organ, oratorio and string numbers on Monday afternoon at four o'clock in the First Presbyterian church.

Non-members of the club will be charged an admission fee of ten cents. The program is as follows:

Mrs. R. A. Holyoke, Mrs. D. A. Campbell, Miss Reynolds.  
Accompanist, Mrs. P. V. M. Raymond.

The Lincoln Sorosis met on Tuesday with Mrs. Munger. Owing to the absence of Mrs. Atkinson, her excellent paper on "Washington's Administrations" was read by Miss Irwin. It was a source of regret that a number of the members missed the opportunity of hearing the results of Mrs. Atkinson's careful study of that topic.

The next meeting of Sorosis, March 29th, will be held at the university in Nebraska hall. Mrs. E. H. Barbour will present the "Water Problem in Nebraska," profusely illustrated by lantern slides.

The outline follows:  
Surface and subterranean action of circulating water—mountains, valleys, canons, water-falls, glaciers, caves, geysers.  
Irrigation in Europe and this country.—Legal problems.  
The arid West.  
Soil of Nebraska, its composition and fertility.  
How water is held in the soil—  
Gravitation water,  
Capillary water,  
Hygroscopic water.

Nebraska's water supply—  
Rivers and underflow, ground water, wells, artesian wells and springs, salt, and blowing wells.

Irrigation by ground water raised by steam, gasoline, wind, and water elevators.

Reservoirs—  
Progress of Irrigation in Nebraska—  
Conclusions—29th of March, 1898.

#### A NEW CLUB.

The Syracuse Woman's club has been recently organized. The following officers were elected: President, Mrs. W. E. Page; vice-president, Mrs. O. Horne; secretary, Miss Bloomingdale; treasurer, Mrs. Charles Snyder.

The winter's study is devoted to history and literature. At present the subject of the "Modern English Novel," is under consideration.

This is the initial effort of the Syracuse women towards mutual improvement and they desire to keep in as close touch with the club movement as their isolation will allow. Already the club is a member of the State Federation.

Gardner Tailoring Co., will make your spring suit, up-to-date, at a reasonable price. Southwest corner 11th and O.
