

Bell's on Tuesday afternoon of this week and completed arrangements for the banquet held last evening. Mrs. Taylor, Mrs. Summers and Miss Harris offered a few suggestions touching the City Improvement association and afterwards the club joined in the general discussion. The next meeting will be held on the twenty-ninth of the month and Mrs. Hinman will lecture on the "Psychology of Suggestion" under these heads:

Definition: "By suggestion is meant a great class of phenomena characterized by the abrupt entrance from without into consciousness of an idea which tends to produce motor effects and bring about the acts which ordinarily follow upon its presence."—Prof. J. M. Baldwin.

I. Suggestion in the normal waking life.

a. In the developing child life.

1. Suggestions due to mere sensations (physiological).

2. Suggestions due to simple ideas more or less dimly perceived ("sensory-motor.")

3. Suggestions due to ideas clearly perceived and associated with remembered and imagined ideas (Ideo-motor.)

b. In adult life.

1. So called unconscious suggestions.

2. Sub-conscious suggestions.

3. Clearly conscious suggestions.

II. Suggestion in sleep and dreams.

a. Seps-impressions of the moment.

b. Ideas which have been recent, frequent or vivid in consciousness.

c. Ideas mechanically linked with A or B.

III. Suggestions in abnormal life.

a. Instances of the remarkable influence of suggestions in hypnosis, disease, seances, popular movements, etc.

b. Explanations for this increased influence.

1. Theories of physical force (magnetism, telepathy, etc.)

2. Theory of two selves. (Hudson, Sidis, Myers, etc.)

3. Theories which refer all the phenomena of suggestion to variations in attention, and seek at the same time to find the physiological differences which correspond to all degrees of either normal or abnormal suggestion.

Mrs. Edholm, who has spent the week in the city lecturing on the subject of social purity, is a fluent speaker and a devoted woman. Her exhortations have been so successful that several hundred dollars have been raised for the rescue mission work here. The money was very much needed. Mrs. Edholm is in earnest and gives her life work with the conviction that help is needed and she can furnish it. The charitable women of Lincoln are very grateful to her and the poor castaways will be when they flee to the mission.

The first social function of the year given by the Syracuse Woman's club was a reception on Friday evening, November 4th, at Burlington, the country residence of Mr. and Mrs. John R. Harvey. About fifty of the club women, their husbands and friends were present. The grounds were gayly decorated with Chinese lanterns, the reception room and parlors of the spacious residence

with palms and chrysanthemums, and the dining room with carnations. Musical numbers enlivened the evening and refreshments were served. The reception was commemorative of the organization of the club one year ago, and the retrospect is most gratifying.

The program for the Amateur Musical club of York for Monday afternoon, November 7th, was devoted to the fugue—Minuet and Gavotte for piano—and English ballads for the voice. Twenty minutes was spent on the history lesson after which the program as follows was given:

On Saturday afternoon, November 5, the ladies of the North Bend Woman's club assembled in the city hall to listen to a program in honor of J. G. Holland. Roll call was answered by quotations from his writings. The "Character Sketch" given by Mrs. E. R. Smith showed much interest and familiarity with his books. His "literary style" was eloquently portrayed by Miss Owens. The book review "Arthur Bonnie Castle" was very fine. Magazine reviews by several of the ladies—different articles from various magazines were finely rendered. Regular business of the club was had.

The following items are taken from the Denver News the very able club department of which is edited by Miss Minnie J. Reynolds whose reports are characterized by succinctness and the leaving out of the unimportant—a very rare gift indeed:

The Denver Woman's club is to have an official organ. The organ will be published in the form of a very pretty little magazine, with an artistic cover printed in blue and white, the colors of the G. F. W. C. It will be called the Colorado Club Review, or perhaps simply the Club Review. The editors and proprietors are Mrs. Mary E. Burdick and Mrs. Laura P. Coleman, both members of the club. Mrs. Coleman is a long-time resident of Colorado, and one of the earliest members of the club. Mrs. Burdick is a comparatively newcomer. The managing editor will be Mrs. L. M. Stansbury. It is proposed to get out the first number about the middle of November. The publication will not be devoted to club news, as this field is covered by the daily press in a manner that precludes competition in a monthly publication. But papers read at clubs and literary features will form the contents. The projectors of the enterprise are positive that the time has arrived for a successful club publication in Colorado. They are undismayed by the fate of various journals of a similar or allied character which have fallen by the wayside in Denver, and declare that if the Club Woman can live, grow and prosper, the Club Review can also. The management has pledged half the net proceeds of the magazine to the Woman's club, to be added to the fund for the club house.

## Sensational Sale of Silks

This is the first offer we have made in our silk department and having two exceptional good values in black brocades we intend closing them out at a

**GREAT BARGAIN SATURDAY MORNING, NOV. 12**  
**AT 9 A. M.**

We will place on special sale our Black Brocaded Silk, 20 inches wide, for 39c per yard. This is our regular 50c quality and has never been sold for less.

We will also place on special sale our 24 inch Black Brocaded Silk (regular price 65c). Saturday's price 50c per yard. These two numbers are very good values and it will pay you to purchase these goods at the above prices.

Now the election is over you should turn your minds to that new winter dress your husband has been promising you. You will find it here complete, as we carry a fine line of dress goods. We are a new firm in Lincoln, building up our business, but nevertheless we have dealt in dry goods for many years, and naturally we know a fine line of goods when we see them. We have taken special care in selecting our stock and we are prepared to stand by any statement we make regarding the style and quality of our goods.

REMEMBER OUR SPECIAL FOR SATURDAY.

The following circular was distributed at the Greeley convention:

The Woman's club of Denver, believing that many clubs, at intervals, desire or need some inspiration which can only be obtained through the interchange of ideas with other clubs, has established a bureau of reciprocity, whereby all clubs in the state, whether federated or not, may avail themselves of the privilege of obtaining papers which have been read before the Woman's club, which contain information, original thought or merit in other respects. All clubs are invited to contribute for circulation such papers as are considered of value to other clubs thus perfecting the idea of reciprocity.

A committee from each department will select and keep on file such papers read in their respective departments as possess superior excellence, which will be classified under the following heads: Home, education, art, literature, science, philosophy, philanthropy, music, reform, history and current topics.

Papers may be obtained on application to the secretary, and payment of postage both ways, and return of the same in two weeks. The committee will also be pleased to answer any inquiries which may be helpful to club women.

The home department of the Woman's club has fitted up what was the Delgany kindergarten room for a free library for that district, and at the meeting of the club yesterday the chairman of that department, Mrs. Coleman, gave a short report of the success. The room was given rent free and heated and the electric lights were put in free and no charge is made for light. The room will be open from 2 to 10 p. m., and they now have 250 books and a number of magazines. Both librarians were very kind, Mr. Parsons promising Italian books for those who could not read English. Those wishing to donate books can send them to Mrs. Chariton, 841 Emerson street, and it is hoped that club women will all send some.

The Woman's guild of University Park raised \$500 last year, almost entirely by membership. This was divided among sixteen worthy pupils who need assistance in their college course. This money is made, not as a gift, but as a loan, on long time and without interest, but still a loan. Thus the pupil receives needed help and retains his independence.

The noticeable point about the foregoing is the evident purpose of the Denver women to be in touch with all forms of life.
