THE OLIVER.

A good story is told of a manager of an opera house in a one-night stand who concluded to become a traveling manager. In casting about for a soubrette he wrote to Harrison Grey Fiske, Editor of the Dramatic Mirror, with a modest request to be referred to a young woman who could both sing and dance and who was clever at both.

Mr. Fiske's reply was to the effect that after surveying the entire field he had picked out all the young women in sight and the list ran as follows.

Della Fox.

Edna Wallace (Hopper.)

The manager might take his choice.

There is a young woman with "At Gay Coney Island" Company which comes to The Oliver for one night, Saturday, October 14th, named Mattie Lockette, who fills both the requirements. The Omaha Bee of October 6th says: "Miss Mattie Lockette was easily the hit of one of the best shows seen at Boyd's in some time," "At Gay Coney Island."

THE FUNKE.

"Chattanooga" relates a story of thrilling incidents, with a background of conflict and honest love, and is in form and manner the best work Mr. Carter has ever done. Its purpose being to keep the auditor constantly entertained, there is no cause to cavil at the means employed so long as they succeed.

of "Superba," which comes to The Oliver Theatre on Monday and Tuesday October 16th and 17th, will agree that it is the best show, the grandest spectacle, ever produced by these famous entertainers. The scenery is magnificent and is given most gorgeous effect by the skillful manipulation of a score or more of powerful electric calciums. The dramatic cast this year is the strongest that the Hanlons have had in many years, while the costumes and armor are radiantly beautiful. The ballet imported entire, direct from London, is spoken of as a vision of genuine beauty, live and graceful figures and healthy complexions. One of the new dances presented is the Parasol Ballet, which is a beautiful combination of effects with different colored parasols. The acrobatic feats are astonishing and the drolleries of the clown are intensely amusing. A most interesting feature is Herbert's Dog Show, the members of which display intelligence that makes them seem almost human. They per-

Headed by their brass band, the company will parade the principal streets of the city, after which a musical concert will be given. The seats are now on sale at the Funke box office and are going very rapidly. That the house will be crowded goes without saying. Everybody will be there, and his sister and brother.

Why the Diamond Gleams.

The diamond is full of phosphorus. This quality has been known for centuries, and still there are many who do not know it. That is the reason often that gleams of light are seen issuing from the stone in the dark. To this quality alone attaches a great deal of value. The most phosphorescent stone is the one that is the best cut. If there is phosphorus in the stone it is greatly enhanced by proper cutting, so that its scintillating faculties are increased.
