Judge our ability as Clothiers by this range. It is the effort of our lives. How well we have succeeded you will be able to tell. There is not a stitch in this range but what is right. They are the finest woollens from the four quarters of the earth; they are the finest buttons experts ever made; the finest linings that money can procure; the finest designs ever achieved by America's foremost high grade manufacturers. In a word, it is the finest hand work by the finest custom tailors. The best values are our aim. To eclipse the finest ever shown heretofore is our ambition. It would be impossible for you to duplicate these garments at any time, at any price, outside of a few swell shops in New York. The materials cannot be matched by local tailors under \$45 or \$50. They are strictly high art, absolutely genteel, thoroughly exclusive—the very acme of modern clothing art—choice of 500 suits,
