#### City Improvement Society.

The city improvement society met on Thursday morning. Mrs. G. W. Rhodes was elected assistant secretary. The F street park was reported in good condition and that the city council has authorized the planting of more trees and the repair of the roads. Open air concerts at the F street park were discussed. The great need of a city ambulance was discussed, but no definite figures have been received as to the probable cost. It was thought that the city officers did not favor the purchase of an ambulance but the ladies were equally certain that local physicians would gladly contribute to such an object. The secretary was instructed to have membership tickets printed as the yearly fees have been due for some time. Mrs. H. E. Lewis urged the women to register on Saturday and to vote for the school bonds. Citizens have been slow in enrolling their names for the contest in neatness of lawns and surroundings. The ladies are desirous of having as large a number as possible

assist in the project. Only ten people can receive the prizes but all will have the pleasure of seeing a beautiful tidy city. Those who are willing to give their encouragement and influence to assist the projectors of the plan are requested to send their names to the secretary.
